Cash contributions

This might be from your organisation's own reserves, a donation from a benefactor, a grant from another funder or other fundraised support (for example, crowd funding).

Non-cash contributions

This includes anything you need for your project that you do not have to pay for (for example, room hire or equipment). We can only accept non-cash contributions if they are direct project costs that could have been part of your project budget.

Volunteer time

This is the time that volunteers give to support the delivery of your project. This could include administrative work, clearing a site or working as a steward at an event. You should not include costs for the time of people who will take part in your activities (for example, people who attend a workshop or go on a guided tour).

We use a standard rate to calculate the value of your volunteer time:

Professional volunteer (for example, accountancy or teaching)	£50 per hour
Skilled volunteer (for example, leading a guided walk)	£20 per hour
Volunteer (for example, clearing a site or acting as a steward at an event)	£10 per hour

National Lottery funding

You can use funding from another National Lottery distributor to contribute towards your project as partnership funding. However, this can't count towards your minimum contribution of 5% or 10%, which must be made up of contributions from your own or other sources, not including the National Lottery.
